

revolving loan fund to provide food aid in response to emergency food crises throughout the world.

As a member of the board, I am pleased to commend the people of this fine organization for 25 years of dedicated efforts on behalf of Americans and people around the world who suffer from hunger.●

60TH ANNIVERSARY OF PEOPLE COORDINATED SERVICES

● Mrs. BOXER. Mr. President, I am pleased to offer my enthusiastic congratulations to the People Coordinated Services of Southern California, Inc., which celebrates its 60th anniversary on June 15, 1999.

The People Coordinated Services of Southern California was founded in 1939 as the Church Welfare Bureau of the Church Federation of Los Angeles. During the past 60 years, the People Coordinated Services have provided youth and family services, substance abuse, counseling senior services, and Licensed adult day care. The Agency has grown to serve more than 20,000 clients annually with a budget of more than \$4,000,000.

I congratulate the People Coordinated Services of Southern California, Inc. for achieving sixty years of achievement through good deeds and service to the community. I salute them.●

TRIBUTE TO KINGSWOOD REGIONAL HIGH SCHOOL ON BEING NAMED TOP SECONDARY SCHOOL OF THE YEAR

● Mr. SMITH of New Hampshire. Mr. President, I rise today to honor my hometown high school—Kingswood Regional High School for being selected as the 1999 Top Secondary School of the Year by the Excellence in Education Committee. The "Excellence in Education" award is an annual program designed to identify one elementary, middle, and secondary school that is representative of the many outstanding schools in New Hampshire.

Kingswood Regional High School was chosen for this honor because of the dedication and commitment to education by its teachers, parents, and students. Its exemplary community involvement in support curriculum has created an environment conducive to the development of young minds.

I admire Kingswood's commitment to excellence. In recent years Kingswood Regional High School has taken on challenging initiatives with outstanding results. Its achievement of academic excellence based on New Hampshire's 10th grade and SAT testing results, and ensuing Writing Across The Curriculum Project, is to be commended. Technology education is integrated throughout Kingswood Regional's curriculum and it's newly

established electronics course will lead to student certification in the electronics field.

The teachers, parents, and students of this school hold a special place in my heart. My wife Mary Jo and I live in nearby Tuftonboro, and I taught history at Kingswood Regional High School. I have had the wonderful opportunity of meeting with both the students and faculty and have established strong and lasting friendships. This close relationship with the Kingswood has allowed me to witness the quality of education that is provided at this school.

As a former Kingswood Regional High School teacher and school board member, I know first hand that this school is truly deserving of this honor. Kingswood Regional High School is a testament to the tradition of molding students into successful adults. I wish to offer my most sincere congratulations and best wishes to Kingswood Regional High School. The school's achievements are truly remarkable. I am honored to represent Kingswood in the United States Senate. Go Knights!●

IN SUPPORT OF GENERAL ERIC K. SHINSEKI'S APPOINTMENT TO THE JOINT CHIEFS OF STAFF

● Ms. MIKULSKI. Mr. President, I rise today in support of General Eric K. Shinseki's appointment as the Army's thirty-fourth Chief of Staff. As a highly decorated officer and a dedicated member of our nation's Armed Forces, I know that General Shinseki will prove to be a valuable member of the Joint Chiefs of Staff.

In his thirty-three years of service, General Shinseki has served the Armed Forces in both the continental United States and overseas. He served in the United States Army Hawaii, as well as at Fort Shafter with Headquarters, United States Army-Pacific. From March 1994 to July 1995, General Shinseki was the Executive Officer of the 1st Squadron of the 3rd Armored Cavalry Regiment at Fort Bliss, Texas.

From August 1997 until November 1998, Shinseki was the Commanding General of the United States Army-Europe and 7th army. He concurrently led NATO soldiers as the Commander of the Allied Land Forces Central Europe in Germany. Additionally, General Shinseki has served as Commander of the Stabilization Force in Bosnia-Herzegovina, and as the Army's Vice Chief of Staff.

As my colleagues know, I am a strong supporter of our men and women in uniform. I understand the difficult sacrifices they make every day in defense of our country—and our ideals. I honor the hard work and commitment that sacrifice demands. Just as they fight for us, I fight for them and federal policies that support them.

As a result of General Shinseki's military service, he has earned the De-

fense Distinguished Service Medal, a Legion of Merit with oak leaf cluster, a Bronze Star Medal with "V" Device and two oak leaf clusters, a Purple Heart Award with oak leaf cluster, and a Meritorious Service Medal with two oak leaf clusters.

Mr. President, I know that General Eric K. Shinseki will be an instrumental contributor to the Joint Chiefs of Staff. Throughout his career he has shown his capability as a leader. His leadership and his military successes will help him to succeed as the new Army Chief of Staff. I look forward to working with him on the restructuring of TECOM to ensure that Aberdeen remains the home of Army testing. I am happy to know that General Shinseki shares the Maryland delegation's view of how important Aberdeen Proving Ground is to the Army, Maryland, and the United States. I wish General Shinseki the best in his new position.●

PRESIDENT'S FOREIGN INTELLIGENCE ADVISORY BOARD "SCIENCE AT ITS BEST, SECURITY AT ITS WORST"

● Mr. DOMENICI. Mr. President, earlier this week the President's Foreign Intelligence Advisory Board released its report on security and counterintelligence operations at the nuclear weapons laboratories of the Department of Energy.

The report's title—Science at its Best, Security at its Worst—neatly encapsulates the Board's findings. This report reiterates and clearly delineates problems within our nuclear laboratories that other reports have also detailed. No one should be surprised.

Let me simply list a few of this newest report's more compelling conclusions:

At the birth of DOE, the brilliant scientific breakthroughs of the nuclear weapons laboratories came with a troubling record of security administration. Twenty years later, virtually every one of its original problems persists.

The nuclear weapons and research functions of DOE need more autonomy, a clearer mission, a streamlined bureaucracy, and increased accountability.

More than 25 years worth of reports, studies and formal inquiries . . . have identified a multitude of chronic security and counterintelligence problems at all of the weapons labs.

Organizational disarray, managerial neglect, and a culture of arrogance—both at DOE headquarters and the labs themselves—conspired to create an espionage scandal waiting to happen.

The Department of Energy is a dysfunctional bureaucracy that has proven incapable of reforming itself.

Lastly, the report states: Reorganization is clearly warranted to resolve the many specific problems with security and counterintelligence in the weapons laboratories, but also to address the lack of accountability that has become endemic throughout the entire Department.

These findings are nothing new.
